

79375 - 79377 Regalite® Picture Varnish

Regalite® R1090 (67260) is a completely hydrogenated, light resistant, low molecular synthetic resin.

A very elastic and long-lasting varnish is obtained by the addition of 10 % Special Gum G 1650 and Tinuvin® 292 (78152).

Regalite® R1090 is the standard resin for picture varnishes. The TG-temperature of Regalite® 1090 is 33°C which can cause stickiness when touched.

Regalite® R1125 has a TG-Temperature of 65°C which avoids the stickiness.

Recipe:

e.g. for Picture Varnish

100 g	Regalite® R1090	Art.-No. 67260
2 g	Special Gum G 1650	
2 g	Tinuvin® 292	Art.-No. 78152
800 g	Shellsol® D 40	Art.-No. 70470
100 g	Xylene	Art.-No. 70503

e.g. for Furniture Varnish

100 g	Regalite® R1125	Art.-No. 67266
2 g	Special Gum G 1650	
2 g	Tinuvin® 292	Art.-No. 78152
900 g	Shellsol® A	Art.-No. 70520
